

Official Journal of;

Radiography

Official Journal of:
The Society and College of Radiographers *and from 2016*
The European Federation of Radiographer Societies

Radiography aims to publish the highest quality clinical, scientific and educational material, on all aspects of radiographic imaging (including diagnostic radiography, computed tomography, nuclear medicine, sonography and magnetic resonance imaging) and all aspects of radiation therapy (to include patient care, dosimetry, treatment planning, verification, treatment delivery and oncology).

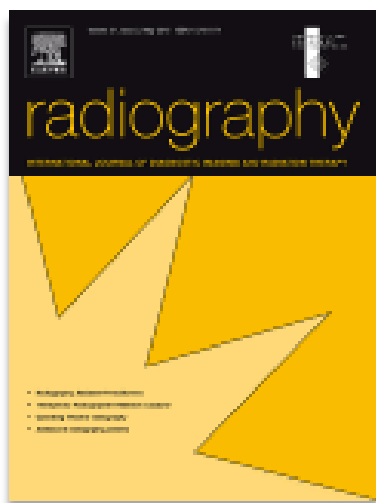

Radiography includes original research, novel review articles, technical analyses, evaluations and case studies. In addition it provides a forum for the exchange of information and views on all matters related to the profession of radiography.

Radiography promotes excellence in the profession of radiography by its commitment to the publication of original research, encouragement and dissemination of best clinical, scientific and educational practice and support for education.

OFFICIAL JOURNAL OF EFRS

We are delighted that in 2016 *Radiography* will become the Official Journal of the EFRS. We welcome the EFRS community as;

- **READERS** - we hope you will see *Radiography* as your journal of choice for keeping up-to-date with the latest research from around the world.
- **AUTHORS** - we invite you to take advantage of our speedy publication times and look forward to seeing an increase in research from the members of EFRS National Societies.
- **REVIEWERS** - we encourage you to become part of the work of the Journal and encourage anyone interested in becoming a reviewer for the Journal to get in touch.
- **EDITORIAL BOARD MEMBERS** - we look forward to welcoming your EFRS representative to our Editorial Board to help us steer the future of our Journal.

BECOMING AN 'AFFILIATED' SOCIETY

As part of the new agreement all EFRS National Societies will automatically be given the opportunity to be listed as 'Supporting Societies' in the Journal. Members of Supporting Societies will have the option of subscribing to the Journal at a 50% discount.

If any of the individual National Societies want to consider making the Journal available to their entire membership, so that all members receive the Journal, 'Affiliated' society status may be an option you want to consider and a more deeply discounted subscription rate could be offered. For more details about 'Affiliated' status please contact our Publisher, Catherine O'Hara (c.o'hara@elsevier.com).

DISCOUNT FOR EFRS MEMBERS

From 2016 members of EFRS National Societies will be entitled to a 50% discount on the personal subscription price for the Journal. For further details please contact:
