

PRESS RELEASE

Interagency Commission for Radiographer Training,

The most representative groups of Radiographer across Spain to work together for the improvement of these professionals.

ACTEDI, AETR, APTEB, COPTESIDEX, COPTESSCV, FESITESS, FETESS, FETESS-Catalunya, SEGRA and the SEOR Radiographers Group work together to help make all TSS Spanish up to par with their European counterparts. An Educational and Professional Skills proposal has been drawn up so that Spain may be fully integrated with a reform in Radiology Radiographer Training. For the first time, all together with a common goal.

Madrid, December 13, 2014. A meeting at the Headquarters of the SERAM was held for this purpose. We worked on a document that presents the academic plan and skills of the Spanish Radiographer. The contents of this document was discussed and agreed upon and finally unanimously approved. It will be led by representatives from the Commission to the Ministries of Health, Education and the Management Boards of Universities.

Name of the new degree proposal:

“Grado en Imagen Médica y Radioterapia”

Duration: 4 years, 240 ECTS.

SPANISH RADIOGRAPHERS WORK TOGETHER, TO MATCH THE TRAINING STANDARDS OF OUR EUROPEAN COLLEAGUES
